Geriatric Rehabilitation Services in Montivilliers, General Hospital, Le Havre

The relocation project of the geriatric rehabilitation services (MPR and SSR) to the Monod site in Montivilliers, near Le Havre, launched by Le Havre General Hospital, is a hospital's image major stake. The new building is embedded to the site, suiting the hospital's historical

heritage. It hosts the consultation centre, the day hospital, the MPR sector's technical centre, 4 accommodations 'units, the staff areas as well as the logistics and technical premises. An outdoor rehabilitation area, a therapeutic garden and a car park are added to the building.
