29 €

Location
Saint-Martin-d'Hères

Medical Centre, Saint-Martin d'Hères

Three storeys of accommodation units, set in magnificent grounds fanning out towards the mountains surrounding the town, designed in the minutest of detail for aftercare and rehabilitation. The rehabilitation unit's very luminous

technical centre, on the 1st floor, presents the project's urban façade overlooking the avenue, thus clearing the view from all the rooms. The balneotherapy centre's terraces overlook the grounds, facing south-west.
