A WELCOMING AND COMFORTABLE FOLLOW-UP CARE AND REHABILITATION CENTRE

Three three-storey accommodation units are spread out in an attractive park, with views of the mountains dominating the city. They are meticulously designed for residential follow-up care and rehabilitation treatments.
The rehabilitation unit's bright clinical block, on the first floor, runs the length of the building's avenue-side urban façade, thus ensuring that all rooms enjoy unbroken views.
The balneotherapy centre's terraces overlook the intimate and relaxing grounds, facing South-West.
