ARCHITECTURE ADAPTED TO THE CLIMATE AND ENGAGED WITH THE LANDSCAPE

The Dieulefit (Drôme) Healthcare Centre specialising in cardiology and respiratory medicine treats both children and adults. Built on the side of a hill on a 9-hectare countryside plot, it overlooks the village, which is surrounded by mountains.

The architecture, which is resolutely contemporary, engages with the landscape. Its horizontal structure highlights the remarkable outlines of the ancient trees which now rub shoulders with the new building.
A light-coloured wood roof tops off the building, and a slatted sunshade regulates light and heat.

Client : Association Dieulefit Santé | **Type of project :** Respiratory medicine healthcare centre partnership | **Selection method :** Public commission | **Team :** Groupe-6 (lead consultant, architect and quantity surveyor) - AABD Lyon (co-contractor, architect) - BETEREM (structure / electricity) - LEBRE Ingénierie (fluids) | **Competition :** 1999 | **Delivery :** 2008 | **Net surface area :** 7,500 m^2 | **Number of beds :** 100 | **Construction costs :** € 9.4 M excl. VAT (2008 value)
