## DEBENHAMS STORE

The «Debenhams» project is an integral part of «Paradise Street», a major highstreet in the heart of Liverpool's docklands. Debenhams stands out in the midst of Paradise Street's ubiquitous brick, hitherto the material of choice which set the tone for the street's somewhat uniform architectural design. Revealing its strategic position and standing out as the district's major point of interest, Debenhams boasts an iconic waveshaped façade, its curves and countercurves highlighted through an alternation of opaque, translucent and transparent glass.

**Client:** Debenhams | **Selection method:** Concours | **Developer:** Grosvenor | **Team:** Groupe-6 (architecture) - BDP (lead consultant, architecture) - Laing O'Rourke (contractor) | **Competition:** 2004 | **Delivery:** 2008 | **Net surface area:** 28,000 sqm
